

The company

Architects Lahdelma & Mahlamäki Ltd. was founded in 1997 in Helsinki. The partners of the company are Professor Ilmari Lahdelma, and Professor Rainer Mahlamäki, both members of the SAFA (Finnish Architects Association). The partners are working together since 1985, having previously worked together at Architects Company 8Studio in Tampere and at Architects Kaira-Lahdelma-Mahlamäki, Helsinki.

Assignments

Our team has extensive experience in all aspects of architecture: public buildings, residential buildings, renovation projects, urban planning as well as interior architecture and furniture design. Significant part of our work has started thru architectural competitions, in which the partners have received 35 first prizes (and 57 other prizes). The latest winning competition is the Capella Parkways Ideas Competition from 2013.

Clients

Our main clients include the State of Finland, municipalities like Helsinki, Kotka, Espoo, Kauniainen, Vaasa, Rauma, Lohja, Oulu and Joensuu, and the universities of Tampere and Helsinki as well as parishes and private constructors. Our Polish clients are the State of Poland and the City of Warsaw.

Works, old and new

We specialise in public buildings, with design projects ranging from small-scale kindergartens to libraries and very large cultural centres and university buildings. Many of the works have been published worldwide:

Towards the end of 1990ies, among the best-known examples in this category are:

- Finnish Forest Museum and Information Centre Lusto in Punkaharju
- Kaustinen Folk Arts Centre, at Kaustinen
- Soininen Primary School in Helsinki
- 4th Building Phase of Tampere University of Technology, the Festia.
- Eestinmetsä Community Service Centre, Espoo

Completed by 2012:

Museums

- Kotka Maritime Centre Vellamo
- The Extension to The Forest Museum Lusto at Punkaharju

Schools and universities

- Primary School at Joensuu
- ICT Building, Turku
- Exactum of Helsinki University (the Department of Mathematics and Statistics, and the Dept of Computer Science)
- The Lower Level Comprehensive School in Jyväskylä
- Physicum of Helsinki University (Department of Physical Sciences)

Libraries

- Lohja Main Library
- Rauma Main Library
- Vaasa Main Library

Services Design

- New Main Entrance for Central Hospital Area, Helsinki
- EVIRA, Finnish Food Safety Authority, Helsinki
- Tyrnävä Health Care Centre
- Iiris, the Service and Activity Centre for the Visually Impaired, Helsinki
- Renovation designs for Aurora hospital area blocks, Helsinki.

Residential

- As Oy Helsingin Vanhalinna, Residential Building, Helsinki
- Tampere, Tieteenkatu and Vuores, Residential Buildings

Offices

- The Extension of the Student Union Building, Jyväskylä
- Office Building for Finland Post Corporation, Helsinki
- Espoo Parish Office Building "Kirkon Kymppi"

Others

- The Urn Cemetery at Tapiola Church Yard, Espoo

Shopping Centres

- Commercial Centre CM Äänekoski
- Shopping Centre KCM Jyväskylä
- Commercial Centre of Malmin Nova II, Helsinki

Major ongoing projects

- Museum of the History of Polish Jews, Warsaw, Poland – completed 2013
- Haltia, Finnish Nature Centre, Espoo – completed in 2013
- Derby Business Park, Helsinki – completed in 2013
- Kastelli Multipurpose Hall, school complex, Oulu
- Jyväskylä residential quarter
- Itäkeskus Helsinki, shopping mall i3
- Tikkurila Train Station Dixi, station facilities and commercial centre area, 1st phase

Residential buildings

Residential building design and construction continues in Jyväskylä for Cygnaeuspuisto Quarter. Two of the five buildings are completed. The rest will be completed 2013/2014.

Helsingin Studio will be completed in 2013.

Helsingin Vanhalinna with 44,000 m² was completed in 2012 and the residential buildings in Tampere for Tieteenkatu and Vuores also.

The residential buildings for the Viikki area in Helsinki were completed in 2009.

The residential building of Helsingin Pasaatituuli was completed in 2006, and the 'Bulevardin Aaria', part of the residential quarter of Sinebrychoff in Helsinki was finished in 2000.

Many of our earlier residential building projects are located in Salo.

Urban planning

One of our main interests is in land use and urban planning.

During recent years, we have been involved in town planning for, among others, the former Finlayson factory area in Tampere, a general plan for the Gunnarla area of Lohja, which included residential and commercial premises, and surveys for developing areas of Espoo, Helsinki, Turku, Hamina and Jyväskylä.

Our office has taken part in three major area studies: one of them was the study of a possible new harbour area in Kirkkonummi for the City of Helsinki, two other were City Centre competitions invited by construction companies: in year 2000 in Helsinki for the Kamppi Centre (and Main Bus Terminal) and in 2005-06 for the city centre area in Tampere.

Renovation

A major renovation project 1999 – 2002 concerned the Aurora hospital area on blocks 1, 14 and 15 in Helsinki. The Vaasa Main Library project (completed in 2001) also included the renovation of the old library building. The Lohja Upper Secondary School completed in 2009 was a renovation project.

Computer aided design

We have invested in CAD and we currently have 30 state-of-the-art PC workstations with broadband connections. Our software platforms include Autodesk Architectural Desktop, McNeel Rhinoceros, Photoshop and Illustrator.

ARCHITECTS LAHDELMA & MAHLAMÄKI

AWARDS AND NOMINATIONS

Annual Lighting Contest 2009 in Finland, Outdoor Lighting First Prize – Maritime Centre Vellamo	2009
